No. 425.—The following resolution of the Government of India is published:—

DEPARTMENT OF COMMERCE AND INDUSTRY.

EMIGRATION.

No. 5435-5432-34.

Dated, the 15th July 1912.

RESOLUTIONS.—By the Government of India, Department of Commerce and Industry.

With reference to the resolution of the Government of India, No. 2185-2302-24, dated the 24th April 1911, the following papers showing that the immigration of British Indians into the Argentine Republic is not regarded with favour by the Argentine authorities, are published for general information. Subsequent arguments are again wanted of the risk they incur in proceeding to that country.

Translation of a letter from the Director General of Immigration, Buenos Aires, dated the 29th January 1912, to the Acting British Consul.

I have the pleasure to acknowledge the receipt of your letter in which you ask me to allow 65 Hindoos, who come by the S.S. *Amos*, to enter the Immigration Hotel, and to permit them to prepare their food in accordance with their religious rites.

In reply, I have to inform you that, in regard to such Asiatic immigration, the Federal Constitution in Article 65 (a) provides that the State should encourage European immigration, and in conformity with this article, the Immigration Law was drawn up, which is at present in force, and which only grants facilities to immigrants from Europe.

A short time ago Dr. de la Plaza, the Vice-President of the Nation, received a letter from the Consul (India) asking what facilities were accorded to Hindoos who desired to come to the Republic. The Vice-President was good enough to send the letter on to me, and I answered it by stating the above-mentioned article of the Constitution, which is very explicit as to the kind of immigration which the Republic should encourage. Dr. de la Plaza, whose legal attainments and thorough knowledge of the Constitution are known to everybody, approved the answer given to the enquiry, and thus approved, in view of the high position which he occupies, the opinion of the Government in this matter.

Dr. Labou, at that time Minister of Agriculture, also gave his approval to the answer, which is desirable also in accordance with the views of Dr. Rojas, the present Minister.

For these reasons this Directorate strongly states that it is impossible to accord the benefits of the Immigration Law to the said Hindoos.

Letter from the Minister of Agriculture, dated the 1st February 1912, to the Minister for Foreign Affairs and Public Works, Buenos Aires.

In reply to Your Excellency's request, I have the pleasure to inform you that the 55 Sikhs (members of British India) who arrived on the 25th instant by the S.S. *Amos* have been landed, and are at present, according to the report of the Directorate of Immigration, at San Martin, in the premises of Buenos Aires.

Had it not been for this circumstance, the Ministry under my charge, desirous of adhering to the request put forward by the British Minister, would have created the admission of those passengers to the Immigration Hotel, but nevertheless feeling so assured that such order did not constitute a precedent.

The observations contained in the note addressed to Your Excellency by the British Minister exempt, in the opinion of this Department, is approved by the Argentine Government in view of the considerations which I will briefly place before Your Excellency.

Our Immigration Law is not the regulations based on the Article of the Constitution which charges the Federal Government with the duty of favouring European immigration. The provisions of the said law must, therefore, be interpreted or compared with the fundamental principle upon which they were based, the more so when that legislation resolves questions of vital importance connected with the future of our national population.

The Immigration Hotel was established as one of the various measures for promoting and encouraging immigration, as not only is the immigrant lodged and fed therein during a stated period, but he is afforded all information which can be of use to him, work is continuously to be found for him, and even after he has left the establishment, his questions are answered. It is evident therefore that this institution is intended for European immigration, the only kind which it is to be favoured according to the Constitutional principle.

On the other hand, in the Immigration Law itself provisions exist, amongst others those of Articles 4 and 17, which are in agreement with the reasons set forth above, as they refer exclusively to European immigrants or to persons of the only points outside the American continent which are permitted the Republic with immigration permissible of being landed.

Further the European immigrants, in order to enjoy the right of being admitted into the Immigration Hotel, must give sufficient proof of good conduct and honest life as industry, art, or useful work (Article 56 of the quoted law).

It appears to me, Señor Ministro, to be necessary to explicate at length the reasons tending to show the right of the Argentine Government to limit its protection and assistance to such immigration as, in their opinion, may serve the interests of the Republic. Such a right, from its very nature, is not open to discussion.

With regard to the provisions of Article II of the Treaty of Friendship, Commerce and Navigation between Great Britain and the United Provinces of the River Plate, it is evident that it is not relative to the case which gave rise to the present communication. At no moment has there been any idea on the part of the Ministry to impede the entry of the natives of British India into our territory who arrived by the S.S. *Sanara*.

Solely for the above reasons have I thought fit not to authorize their stay at the Immigrants' Hotel, which, as I have said before, is intended for their immigration which is encouraged by the Argentine Government.

AND CHARGES ATTACHED TO SUCH SERVICES.

(2) *Goods deposited for packages under appraisement*—Goods opened by order of the Customs Department or removed by the Trade, under the instructions of the Customs Department, for examination or appraisement, remain at the risk of the owner until, with the permission of the Customs Department, they shall have been returned definitely by the owner to the Trade for custody and a receipt for them shall have been issued.

(d) *Condition in which exports to Trust's custody may pass out.*—Exports which have passed on to the Trust's custody, as per clause 1 (b) and (d), may not be moved for shipment until the receipt given for them by the Trust to the exporter, or a certificate of equivalent validity, shall have passed to the Trust from the exporter.

2. Board's option to receive services—(c) *To every goodly water.*—Under section 39 of its Act the Board has the option to land, ship or tranship goods between vessels in the port and its wharves, piers or docks. But the Board does not at present perform any such services.

(8) It falls always by great for delivery or storage.—Under section 96 of the Act, the Board has the option to receive, store, or reject under bond the commodities, personal, postage or storage of goods brought from one place to another. For goods of which it intends to take charge, the Board is bound to issue a receipt (30 (1) of the Act), to give a receipt if it chooses required. But an agent it does not take charge of the following classes of goods, whether in the open or under such charter, lading or unladen, as may have been placed at owner's or steamer agents' disposal by the Board, viz—(a)—goods not specifically tendered for cargo under charter (14) and for which a receipt has therefore not been given; (b) live and stored, the handling of which has been relinquished by the Trust to steamer agents; (c) sea-borne coaling cargo of which the handling has been relinquished by the Trust to steamer agents—other than the coal-lifts that must be taken ashore by the Board's own staff; (d) parcels; (e) Government stores; and (f) sailing ships and boats, all of which are subject to special provisions. (b) *Displacement of portage by Trout to steamer*.—Whenever the Port Trust agrees with steamer agents to relinquish to the latter the portage of any suitable sailing cargo, the rate of harbour dues payable by owners of such cargo will be 4 annas less per ton than those quoted in the enclosed scale of rates; this reduction will not, however, apply to the compulsory goods above mentioned in Part B of the scale, and goods loaded outside the harbour. Exports so handled for shipment do not, however, pass thereby into the Trust's custody but are at the risk of the owner. Should any part of them have been in the Trust's bulwark under clause 2 (d), prior to their passing out for shipment, they will already have been safely stowed under clause 1 (a) before being handled.
